What are the best things about this class and your instructor?

Soumya was definitely interested in student learning,
All the problems he posted were great. He went
above and beyond.

What things need improvement? Any suggestions?

We need to get more problems done in
discussion. Sometimes we just went to slow.

Other comments?

Great T.A! Would recommend you to others.

What are the best things about this class and your instructor?

The instructor knows a lot about calculus and he explains all questions extremely well and a question never goes un-answered.

What things need improvement? Any suggestions?

The only problem is that sometimes you spend a lot of time on a part of a question that seems very obvious, if you spent less time on the more trivial parts of questions it might be possible to do more examples.

What are the best things about this class and your instructor?

Helped further explain concepts from lecture that weren't fully understood.

What things need improvement? Any suggestions?

A little indecisive and too thorough, just give basics on how to do problems

Other comments?

None

What are the best things about this class and your instructor?

Instructor knew ~~the~~ most of material and taught in a step by step manner

What things need improvement? Any suggestions?

Speed of teaching, some examples would take at least half the class if ~~he~~ got confused or frazzled.

Oh, and the #9 looked like the letter g when written. Sometimes confusing.

Other comments?

Always complained about not sleeping. Sleep more.

What are the best things about this class and your instructor?

He always asked what questions we had
& answered them effectively.

What things need improvement? Any suggestions?

Sometimes you go to slow & we don't get
through many problems. Its better for our
understanding but its harder to pay attention

Other comments?

Youre a good TA

What are the best things about this class and your instructor?

Absolutely wonderful class

learned to think in a different way

you should really think about becoming a professor if you're not already planning on it.

What things need improvement? Any suggestions?

Wish we could have gotten through more problems during class
